Goals for today's workshop

- Identify and prioritize which challenges might best be addressed by adopting:
  - common metrics and methods across the community, and/or
  - Formal Standardization

- Discuss whether modularity is a goal to strive for.
  - What standards/Standards might help get the field there?

- Discuss how to begin the process, if the consensus is to develop and adopt metrics/methods and Standards.

Neurological Disorders
and Stroke

Plans for today & going forward

- Today: have an open discussion,
  - keep in mind actionable steps

- Distill the major messages into actionable steps during afternoon sessions
  - What steps toward development of <u>s</u>tandards and <u>S</u>tandards should we dedicate time and effort to?
  - Who? How? When?

- Continue discussions post-workshop and solicit volunteers to form working groups according to actionable steps identified
National Institute of
Neurological Disorders
and Stroke

Next Steps

- <u>S</u>tandards

- Recommended Practices

- Guides

- Trial-Use Documents

- <u>s</u>tandards

- Who?

- How?

- When?
